

AMAN SINGH

Systems Automation & Technical Analyst

📞 +91 93404 74252 — ✉ aman.singh01031997@gmail.com — 🌐 itsaman4u.vercel.app
🐙 github.com/its-aman4u — 🌐 linkedin.com/in/aman-singh-10a060217 — 📍 Gurugram, Haryana, India

Executive Profile

Systems Automation Engineer with **4+ years of experience** specializing in database integrations, ETL pipeline development, and automated reporting systems. Transitioned from logistics operations to full-stack scripting by self-teaching computer science fundamentals (Harvard CS50). Designs secure MySQL/SQLite connector architectures, manages SSH tunneling tunnels, writes robust Python data pipelines, and automates administrative tasks using Google Apps Script to eliminate manual operational overhead.

Skills

Technical Platforms: FastAPI, React, Next.js, Fastify, MySQL, PostgreSQL, Redis, Git, Docker, Meilisearch, SSH Tunneling, REST APIs

Data & Automation: Python (Pandas, openpyxl, IMAPClient), SQL (MySQL, SQLite, DuckDB), Bash, PowerShell Scripting, ETL Pipelines, Reporting Automation, Google Apps Script, Cron Job Automation

Systems & Architecture: Solution Design, Data Governance, System Integration, REST API Integration, SSH Tunnel Security, Security Auditing

Domain Expertise: Warehouse Management Systems, Process Automation, Logistics Analytics, Technical Documentation, Version Control (Git)

Professional Experience

Holisol Logistics Pvt Ltd

Data Analyst & Technical Business Analyst (Systems Automation & Delivery)

New Delhi, India

Nov 2021 – Present

- **HWMS Insights Platform:** Identified daily WMS reporting bottlenecks; designed a secure database connector using SSH tunneling, role-based access (RBAC), and encrypted credentials; delivered the system at hwms.holisol.in, adopted by operations to eliminate manual compilation loops.
- **HoliHealth Safety Suite:** Identified manual Excel compilation bottlenecks in PAN-India compliance; designed a centralized safety database and automated weekly audit data pipelines; delivered the reporting suite, co-leading weekly reviews with Warehouse Leadership and the Safety Head.
- **Department Automations:** Identified repetitive manual email tasks and tracking bottlenecks within corporate HR operations; designed Google Apps Script scripts integrating Sheets with Gmail to send automated anniversary and celebration mailers; delivered customized HTML/CSS email pipelines and coordinated trainee masterclasses.
- **Permit-to-Work (PTW) Module:** Identified operational delays and compliance risks in paper-based permit tracking; designed the approval state machine (Draft → Approved → WIP → Closed), SoD roles, and PRD; delivered the digitized system with Safety Head, IT, and mobile developers for 100% compliance.
- **Holinet Registry & Data Governance:** Identified routing and lookup errors from inconsistent location records; audited GPS coordinates and lease expiries across **80 corporate locations** and fixed CSV export bugs; delivered clean master registry data with IT, Legal, and Operations for data governance.
- **FMS Area Sheet Redesign:** Identified reporting latencies and database sync errors from legacy WMS overrides; designed the Architecture Correction Plan proposing DuckDB local caching, stable month detection algorithms, and validation controls; delivered the engine with Business Navigation.
- **ERP Ingestion Automation:** Identified manual data entry errors and sync latencies between WMS and ERP; designed Python ETL synchronization scripts, automated email protocols, and data validation checkers; delivered daily automated sync runs with IT and WMS/ERP Vendors to eliminate manual data entry.
- **HoliConnect Platform:** Identified operational silos and integration friction across legacy web tools (InSite, Dopex, D-Talk); designed a unified Progressive Web App (PWA) architecture utilizing Next.js, Fastify, Docker, Redis session caching, and Meilisearch; delivered comprehensive technical proposals and architectural specifications to department heads.

Somany Ceramics Ltd

Data Analyst & Learning & Development Coordinator

Noida, India

Mar 2024 – June 2024

- **Productivity Audits:** Identified procedural training gaps in manufacturing plant operations; designed SQL query templates and Excel progress-tracking dashboards; delivered an optimized training registry that reduced retrieval latency, improved data integrity, and secured ground compliance audits.
- **Analytics & Reporting:** Identified regional performance discrepancies through high-volume training metrics; designed interactive reporting dashboards, visual data models, and pivot summaries; delivered key performance presentations to cross-functional management teams to guide strategic business decisions.

Holisol Logistics Pvt Ltd (Early Tenure)

Compliance & Safety Team Lead & Corporate L&D Coordinator

New Delhi, India

Nov 2021 – Feb 2024

- **Warehouse Operations & SOP Design:** Identified ground-level bottlenecks in WMS inward/outward flows; designed canonical SOP processes mapping transitions (such as Reliance Dadri FC); delivered orientations, training coordinates, and vehicle schedules for the RISE leadership promotion program.
- **Safety Operations & Vendor Management:** Identified compliance gaps and vendor communication delays; designed weekly Friday safety training protocols (training site in-charges) and compiled Kaizen checklists; delivered contract coordination for 55 manpower vendors, handling vendor queries and broker mediclaim negotiations.
- **Process Improvement:** Identified high-frequency safety violations across corporate hubs; designed root cause analysis (RCA) audits and corrective safety frameworks; delivered audit compliance guidelines across hubs, achieving a **25% reduction in safety violations** nationwide.

Deployed Systems

HWMS Insights Platform (hwms.holisol.in) — Live WMS database connector automating daily operational reporting via secure SSH tunneling.

Portfolio & Career Hub (itsaman4u.vercel.app) — Showcase of systems delivery, personal projects, and interactive timelines.

Citizen News Platform (citizen-news-platform.vercel.app) — Multi-theme content aggregation portal with subscription management.

Prisha Retail Website (prisharetail.com) — Responsive client e-commerce landing page and product listing portal.

Cyber Creative Agency (cyber-creative-agency.vercel.app) — Premium frontend interface demonstrating smooth scrolling and modern CSS grids.

AI Exam Prep Portal (ai-exam-prep-portal.vercel.app) — Interactive examination helper with mock tests and real-time metrics.

Recovery Clinic Portal (recovery-clinic-portal.vercel.app) — Healthcare scheduling application and booking dashboard.

Digital Genesis Quest (digital-genesis-quest.vercel.app) — Gamified tracker monitoring and displaying coding achievements.

Flagship Projects

HWMS Insights Platform

System Designer & Developer — Tech: FastAPI, React, MySQL, SSH Tunneling, SQLite

Production System — hwms.holisol.in

2024 – Present

- **End-to-End Delivery:** Identified operational bottlenecks in daily warehouse reporting; designed a live database connector using secure SSH tunneling, role-based access (RBAC), and encrypted credentials; delivered the system deployed at hwms.holisol.in, adopted across operations teams to automate manual compilation.

HoliConnect Architecture Proposal

Solutions Architect — Tech: Next.js PWA, Fastify, PostgreSQL, Redis, Meilisearch, Docker

Enterprise System Design

2026

- **System Consolidation:** Identified operational silos and integration friction across legacy web tools (InSite, Dopex, D-Talk); designed a unified Progressive Web App (PWA) architecture utilizing Docker containers, Redis session caching, and instant search; delivered comprehensive technical proposals and architectural specifications to department heads.

Education & Credentials

ITM University

Master of Business Administration (MBA) – SCM & Logistics (Process Management)

Gwalior, India

2020 – 2022

ITM University

Bachelor of Commerce (B.Com)

Gwalior, India

2017 – 2020

Certifications & Learning

Google Data Analytics Professional Certificate — Data Cleaning, SQL, and Visualization (2024)

Harvard CS50 — Introduction to Computer Science (Self-taught foundations)

Certified Operations Analyst — SCM Analytics Training, Holisol (2023)
