Executive Profile

Full-stack **AI Systems Engineer** and automation developer with a proven record of implementing secure backend APIs, database tunnels, and WebGL frontend architectures. Expert in leveraging local LLM engines (Ollama, Deepseek) to multiply engineering velocity. Deployed enterprise WMS connectors, P&L compilers, and safety aggregators that automated over **150 hours of manual processes per month** and optimized operational bottom-line efficiency.

Technical Architecture & Toolkit

AI Integration & Agents: Local LLM deployments (Ollama, Deepseek), RAG pipelines, Prompt Guarding, autonomous agent security
Backend & APIs: Python, FastAPI, Streamlit, RESTful APIs, JWT, AES-256 (Fernet) Encryption
Data Engineering: SQL (MySQL, SQLite, DuckDB), SSH database tunneling, ETL pipelines, Pandas, Openpyxl, SFTP
Frontend & UI/UX: React, TypeScript, Tailwind CSS, shadcn/ui, Three.js, React Three Fiber, WebGL
DevOps & Tools: Git, Docker sandboxing, Model Context Protocol (MCP), JIRA, LaTeX, Vite

Professional Experience

Holisol Logistics Pvt Ltd

New Delhi, India

AI Automation & Systems Developer

Nov 2021 – Present

- **WMS Insights Integration:** Engineered the live **HWMS Insights Connector** using FastAPI, Next.js, and SQLite, establishing secure SSH-tunnels to live warehouse MySQL databases. Automated reporting dashboards to save **44 hours of manual labor/month**. Link: github.com/its-aman4u/hwms-insights-connector
- **Operations Pipeline Automation:** Built Python ETL scripts for daily Increff WMS (HINA) and Verdis file transfers, automating data ingestion pipelines to save **30 hours/month** and eliminate transcription errors.
- **MIS P&L Automation:** Created automated month-over-month roll-forward financial compilers. Designed data validation checks and locked regional submission structures, saving **25 hours/month** of manual aggregation.
- **Holihealth & Safety Mailers:** Aggregated facility safety compliance and checklist score databases into automated weekly PDF dispatch engines, saving **22.5 hours/month**.
- **Financial Bottomline Gains:** Facilitated cumulative savings through Daily FC P&L audits, Last-Mile delivery route mapping, and billing realization recovery.

Somany Ceramics Ltd

Noida, India

Data Analyst & L&D Coordinator

Mar 2024 – June 2024

- **Productivity Audits:** Designed SQL query templates and Excel spreadsheets to evaluate ground personnel training compliance; restructured the document registry to improve file retrieval speed by 30%.
- **Analytics & Reporting:** Aggregated regional performance metrics, generating data visualization sheets for cross-functional management teams.

Holisol Logistics Pvt Ltd (Early Tenure)

New Delhi, India

Compliance & Safety Team Lead

Nov 2021 – Feb 2024

- **Process Optimization:** Led compliance audits for PAN India warehouse centers; implemented safety frameworks to reduce violation incidents by 25%.
- **Compliance Standards:** Maintained statutory audit logs and safety certification standards for operations staff across multiple major fulfillment hubs.

Flagship AI & Full-Stack Projects

Zero-Trust AI Workspace Framework

Research & Systems Design

Lead Researcher — Tech: Docker sandboxing, Model Context Protocol (MCP) Security, DevSecOps

2026

- Authored a 37,000-word research publication defining execution parameters, prompt shielding, and pre-ingestion quarantine zones to isolate autonomous AI development agents inside Docker environments. Link: github.com/its-aman4u/zero-trust-ai-workspace

InsightForge Engine

Open Source Analytics Tool

Creator — Tech: Python, Streamlit, DuckDB, Pandas, local Ollama LLM

2025

- Built an ETL dashboard engine converting database logs into clean metrics; integrated local LLM queries with custom SQL validation rules ('assert_readonly()') verified by 22 automated safety tests. Link: github.com/its-aman4u/insightforge-engine

Vercel Interactive Deployments

Lead Developer — Tech: React, TypeScript, Tailwind CSS, Supabase, Vercel CI/CD

Rapid UI/UX Prototypes

2025

- Shipped and maintained 5 live-deployed web portals: Cyber Creative Agency (cyber-creative-agency.vercel.app), AI Exam Prep (ai-exam-prep-portal.vercel.app), Recovery Clinic (recovery-clinic-portal.vercel.app), Citizen News (citizen-news-platform.vercel.app), and Digital Quest (digital-genesis-quest.vercel.app).

Education & Credentials

ITM University

Master of Business Administration (MBA) – Supply Chain & Logistics

Gwalior, India

2020 – 2022

University of Delhi

Bachelor of Science (B.Sc.)

Delhi, India

2015 – 2018

Certifications & Affiliations

Certified Operations Analyst — SCM Analytics Training, Holisol (2023)

Advanced Full-Stack Engineering — Open Source Software Contributions (2024)

Securing AI Workspaces — Prompt Shielding & LLM Defenses Framework (2025)
